Briefly describe what you intend to accomplish.

How does this project address one or more of the four overall goals of the grant?

1. *In what ways have we achieved better understanding of student-teacher relationships and their significance to learning?*
2. *In what ways have we further explored our identity as a college? In what ways have we enriched the dialogue on vocation and the implications for learning?*
3. *In what ways have we explored and applied familiar and unfamiliar enhancements of the teacher-student relationship?*
4. *In what ways have we enhanced assessment of student learning? How can we apply that to the curriculum?*

When do you intend to complete the technology integration? \_\_\_\_\_  
(must be no later than Fall semester 2005)

**Statement of agreement to participate in assessment of impact upon student learning:**

*I agree to participate in assessment of the impact on student learning of the instructional technology innovations made to my course.*
