

## *Endowment*

**T**he endowment continued to recover from the depths of late 2008 and early 2009, increasing to \$49.9 million during fiscal year 2009-2010. It grew \$7 million, with \$4.1 million from generous gifts from donors and \$4.6 million due to the 11% return on investments. The gifts and growth were offset by \$1.7 million that was drawn from the endowment in support of student scholarships and faculty salaries.

The investment committee continues to monitor the Augustana investment portfolio and has made strategic changes, while maintaining the balance of domestic equities (30%), foreign equities (25%), fixed income (20%) and alternative investments (25%). With the performance over the last year and recent gains in the market, by fiscal year-end the College was approaching the peak value achieved in 2007.
