

**AUGUSTANA
COLLEGE**

**BIOLOGY SEMINARS
FALL, 2011**

Wed., Sept. 14th
***GSC ACADEMIC HALLWAYS
(MAIN AND TOP FLOORS)**

*GSC Undergraduate summer research
poster session*

Wed., Sept. 28th

*Investigating epigenetic regulation of
water-use related genes in tomato*
Steve Matzner, Ph.D. and Kelly Wong ('13)
Augustana College

Fri. Oct. 7th
(Joint Seminar with
Chemistry and Physics)
***GSC 100 (AUDITORIUM)**

*Exploring new frontiers in receptor control of macrophage
function by novel live-cell imaging approaches*

Adam Hoppe, Ph.D.
South Dakota State University

Wed., Oct 19th

Atherosclerosis trumps estrogen

Kathy Eyster, Ph.D.
University of South Dakota

Wed., Nov. 30th

*Burning issues in conservation biology: The effect of
reproductive season prescribed fire
on an endangered insect species*

Carrie Hall, Ph.D.
Augustana College

Fri., Dec, 9th

*Beyond the Augie borders:
Student presentations on off-campus research*

*Stay Tuned for Seminars from Candidates for the Biology Faculty Search in
Genetics/Molecular Biology Starting in Late October.*

***Seminars will be held at 3:00 PM in Gilbert Science Center, Room 101 unless otherwise noted.**
