# COVID-19 Vaccines

## DEBUNKING THE MYTHS

### VACCINE MYTH

### VACCINE FACT

It was rushed and isn't safe

Researchers took no safety shortcuts. Large studies show the vaccine is safe.

It changes your DNA

It's impossible for the vaccine to change your DNA

It can give you COVID-19

The vaccine doesn't contain a live virus strain

It contains egg protein

It doesn't contain egg proteins and can be given to people with egg allergies

It causes severe side effects

For most, the vaccine causes mild side effects that resolve in a few days

It makes women infertile

There is no evidence that the vaccine causes infertility
