

## CAMPUS LEARNING CENTER COVID PROTOCOL

### Definition of **FULLY VACCINATED FOR CHILDREN 6 MONTHS-4 YEARS:**

3 Doses of Pfizer-BioNTech

2<sup>nd</sup> dose is given 3-8 weeks after 1<sup>st</sup> dose

3<sup>rd</sup> dose is given at least 8 weeks after 2<sup>nd</sup> dose

**COVID TESTING:** It is recommended that persons with symptoms of COVID should be tested. If the test is negative, they may return when symptoms are improved and they have no fever for 24 hours without medication.

**POSITIVE COVID TEST:** All persons who test positive for COVID, regardless of vaccination status, should complete isolation as follows:

- Stay home for at least 5 full days from the date of symptom onset if symptomatic or from the date of the positive test if no symptoms. Day 0 is considered the day symptoms started in symptomatic persons or the day of the positive test (based on the date of testing) if asymptomatic.
- After day 5, if the person has no symptoms or if symptoms are improved and they have had no fever for at least 24 hours without medication, they may return if they wear a well-fitting mask\* for 5 additional days (day 6 through day 10). If they are unable to wear a mask, they may

return to school or child care if they have a negative test at day 5 or later; otherwise, they should remain at home for day 6 through day 10. A negative test at day 10 or after is not needed to return.

\*Masks do not need to be worn in schools or child care programs while eating, drinking or sleeping.

Staff or Student/Child with	Guidance for Management
COVID symptoms	<ul style="list-style-type: none"> <li>● Staff or student/child should not attend or work</li> <li>● COVID testing is recommended</li> <li>● If test is negative, may return when symptoms have improved, no fever for 24 hours without medication</li> </ul>
Positive test for COVID, regardless of symptoms	<ul style="list-style-type: none"> <li>● Staff or student/child must stay home for 5 days from the start of symptoms or from the date of the positive test if no symptoms</li> <li>● After day 5, may return if symptoms have improved and no fever for at least 24 hours without medication</li> <li>● Upon return, must wear a mask for 5 additional days (except while eating, drinking or sleeping)</li> <li>● If unable to wear a mask, may return if they have a negative test at day 5 or later; otherwise, they should remain at home for days 6 -10</li> </ul>
Close contact with someone with known or suspected COVID but no symptoms	<ul style="list-style-type: none"> <li>● Staff or student/child can continue to work in or attend school if they have been fully vaccinated (2 weeks after last dose of primary series or booster obtained)</li> <li>● If unvaccinated, follow CDC guidelines for quarantine.</li> <li>● Those who can mask should do so for 10 days from the last day of exposure</li> <li>● A test at 3-5 days after exposure is recommended, especially for those who cannot mask (ex. children under 2 years of age)</li> </ul>
